Our award winning 1:32nd digital system maintains its huge success among retailers and slot enthusiasts, consolidating its position as the most popular product line of the category.

The advanced technology integrated into our cars and accessories has made SCX the Digital System the closest thing to a real racing experience, with racing up to 6 players at one time, real passing among the competitors, and pit box strategy that rivals real racing.
The digital technology

The digital system Technology features a chip in each car which allows you to:

- Give instructions to your car so that you can overtake your opponents by changing lanes.
- Link each car to a controller so that up to 6 cars can compete at once.
- Personalise your car to suit your driving style by setting the braking power and the fuel load.
- Send constant information to the Control Unit so that you can see the state of the race at any time (times, positions, and fuel consumption).

Overtaking / Lane-changing

The car is equipped with a microchip which is able to receive instructions from the driver: change lanes by pressing the button on the back of the controller, or activate the braking system by releasing the accelerator trigger of the controller.

Position of the guide mechanism BEFORE changing lanes.

Position of the guide mechanism DURING the instruction to change lanes.

Technical features of the cars

- High Intensity Headlamps
- Xenon Effect
- Detailed Chassis
- Tilting Chassis
- With Brakes
- With Steering (Only F-1 cars)
- Removable and adjustable magnet
- A.R.S. Guide (Automatic Return System)
**BASIC**

Ref. 10120

Contents:
- 2 Electronic hand throttles
- 1 Control unit power line
- 1 Terminal track 360 mm
- 7 Standard straights 360 mm
- 4 Changeover tracks 360 mm
- 1 Standard straight with 3,4,5,6 position
- 1 Standard straight with 3,4,5,6 position
- 1 Electronic transformer
- 6 Standard curve borders with barriers
- 2 Cars

Length: 5,5 m (18'')
Dimensions: 246 x 104 cm (8'07'' x 3'41'')

---

**F-1**

Ref. 10080

Contents:
- 1 Pit box control unit
- 1 Pit box start terminal track 360 mm
- 3 Electronic hand throttles
- 1 Standard straight with 3,4,5,6 position
- 4 Pit box barriers
- 1 Right side access track 360 mm
- 1 Left side access track 360 mm
- 2 Single lane pit box straights 360 mm
- 2 Single lane straights 360 mm
- 5 Standard straights 360 mm
- 3 Changeover tracks 360 mm
- 8 Standard curves
- 1 Electronic transformer
- 8 Tapering borders with barriers
- 8 Standard curve borders with barriers
- 3 Cars

Length: 6 m (20'4'')
Dimensions: 294 x 113 cm (9'6" x 3'7")

---

246 x 104 cm (8'07'' x 3'41'') length
